Dear Club President:

You don't have to be a professional to be interested in -- even fascinated by -- things of the spirit. Not a doctor, psychologist or teacher or minister. All it takes is a normal amount of curiosity and interest in how and why the gap has widened between who we are and who God would have us to be.

Because I believe that description may embrace you, here is an invitation and a heartfelt offer to...read an incredible book that bridges the gap between what is and what ought to be. . .

## **CAN THESE BONES LIVE?**

The benefits of reading this book are many, some more inwardly rewarding than they are tangible, but nonetheless real. *Can These Bones Live?* is not abstract, disconnected, academic theory but, rather, a real story of fascinating, logical, consistent but erratic, down-to-earth life as it is.

This book is a story of faith which depicts the fulfillment of God's heart for his people. It is a spiritually encouraging and enlightening book that portrays the everyday struggles of an African American man called by God to leave his comfortable home and successful business to go to an unfamiliar place to a small nondescript church in the midst of a predominantly white community.

The narrative describes a people isolated, disenfranchised, and alone and follows the deeds of a God who cares for them. His triumph is seen in the ultimate transformation of the church, its people, and the community to which it was called to serve. This book will challenge you. It will disturb you, it will shake your spiritual apathy, and it will bare your personal ambition.

No matter how many books you have previously read or what has been your particular literary taste -- *Can These Bones Live?* will encourage as well as confront. It will make you laugh, it will make you cry, it will make you angry, it will bring you joy, and it will leave you clamoring for more.

The fact that you have read this far indicates that for you, life has yet many unanswered questions. This book meets them head on: It will stretch your brain, stimulate your mind, restore hope, recapture dreams, allow vision, and give positive assurance that indeed miracles still happen. That is what I promise you, from cover to cover in *Can These Bones Live?*

I would like to send you a copy of my book. But before I do, I'd like permission to probe around a bit in your head to get some idea of what you think is relevant for you and your group and to find out if this is a book you will really enjoy. Got a moment now? Feel in the mood? Don't mind? Then plunge right in and consider some of the questions offered here:

1. Do you believe God has a plan for your life? If so what is it?
2. Are you satisfied with your faith experience, or do you long for a deeper more intimate relationship with the Lord?
3. Does God still perform miracles today or have they ceased with the early church?
4. Are you able to give your children the positive inner tools necessary for living a life of faith today?
5. Do your church leaders have a God given vision? If not, why not?
6. Is your church among those stagnating and in decline? What are the signs of a dying church?
7. Is God's vision available to you? If so how do you receive it?
8. What is your experience of the things promised by God?
9. If you understood more of the things of God would it draw you closer to him?
10. What is the difference between knowledge and knowing?

Can These Bones Live? is a book that holds to only one ideal – truth that transforms. I assure you in reading this book change will ensue: It will excite you, stave off mental stagnation, give you something worthwhile to think about and talk about and reflect on. Please accept my invitation to take up this book and experience for yourself God's affirmative answer, "Yes, these bones can live. These bones can become living persons again.

Sincerely yours,

Joshua A. McClure

## Joshua A. McClure's Testimony

Joshua A. McClure was born in Brooklyn, NY, in October of 1931 to devoted Christian parents. As a child he witnessed up close the sovereignty and healing power of the Most High God. Who else but God could take an angry and bitter African American man scarred by bigotry and racist events of his past, and bring him to minister in a small church in a predominantly white Italian Catholic community in the town of Westerly, Rhode Island.

The miraculous thing is that McClure had been at that church before in December of 1959 when as a cabinetmaker he was asked to build the Church's communion table in memory of his mother who had recently passed. Five years later 70% of the church was destroyed in a disastrous fire, and yet this same communion table was miraculously undamaged.

## Meet Joshua A. McClure (con't)

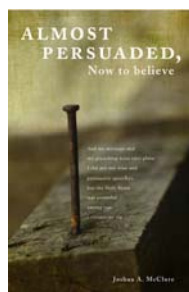

Was it a coincidence or was it the beginning of God's plan and vision for Joshua, Westerly, and the surrounding community? For in 1976, God placed His vision in the heart of Pastor McClure. That vision compelled him to give up everything he held dear and set him on the road of forgiveness and healing.

In the Town of Westerly, 17 years after the fire, Joshua found himself standing behind that very communion table as God unfolded His vision at Pleasant Street Baptist Church.

God had supernaturally prepared him to minister to people much like himself; those who were hurting, bruised, disenfranchised and in need of healing. Yes, Joshua would now be directed to share the gospel of God's love in the most distressed area of Westerly, Rhode Island.

This is a triumphant story of restoration of a people, church, and community. It is a story of how a faithful God keeps his promise to all who will faithfully follow him. It is a story that all Christians need to hear. For more on Joshua's testimony I refer you his book, "*Can These Bones Live?*"

I want to express my appreciation and say thank you to Joshua McClure for being a scholar who thought it not robbery to become a general practitioner. Scholars usually remain at the academy, out of the line of fire, and reflect on the problems of the street. I think when we learn more about Pastor McClure, we may discover that He became a scholar seeking answers to the hurts, the doubts, and the uncertainties he encountered in the lives of struggling Christians in the street. I think it was in the street that Reverend McClure learned to be very cautious about using the term “serious Christian.”

This Preacher has taken words and concepts that we often use, assuming, mistakenly, that the listener understands, and has wrapped them around the everyday events of his journey. Scripture passages come alive as he relates his story to concepts like the trinity, creation, the fall, Incarnation, New Creation, deeper life and others. Pastor Joshua McClure exposes himself in this book. The reader will learn that Joshua has a scholar’s mind...and a shepherd’s heart. Thank you, Reverend McClure, for sharing.

"I was impressed by the depth of the theological content covered in the book, *Almost Persuaded Now to believe*. The book, as I see it, would be a good tool to anyone who has studied in a seminary or Bible College as a refresher, but more so, to someone who has never had the benefit of studying theology."

## DivineSisterz of Chicago Christian Book Club Review

*Can These Bones Live? The Miraculous Story of What can Happen to a Church that Follows God's Vision.* "In his new book *Can These Bones Live?*, author Joshua A. McClure addresses the serious problem of the thousands of stagnant, declining, churches in North America."

---

Reviewer – Sidne the Book Club Reviewer & Founder DivineSisterz of Chicago Christian Book Club

Joshua A. McClure, Pastor and new inspiring author compiles his life experiences, his life lessons, his gift of wisdom and his pastoral leadership into a passionate plea for Christians to rethink, regroup and restructure the foundation of today's moribund churches. His novel, "*Can These Bones Live?*," will lead readers to re-examine their biblical studies of God's directives in relation to the responsibilities pastors and church leaders have in fulfilling God's vision!

As the wise men followed the star in the sky to the Christ child, Pastor McClure novel is luminous. His novel will lead you to the testimonies that speak out from a dried boned church and its spiritual recovery back to its healing and contagious vitality and fervor. It is a novel that also serves as a bible study; within the pages are customize scriptures leading you to a better understanding of faith, and the importance of a visionary church. "*Can These Bones Live?*" will lead you back to the world's best revelation, The Holy Bible. It will point you to God's meaning of Vision, Faith, and His desire for the church.

### From the pages of the novel you will read these statements:

"Where there is no vision the people perish"

"What I have come to learn is that visions must be pursued by faith"

"The lesson for me to learn was that the measure of any success in the ministry would not be how well the people respond, but how well I obey God and how faithful was my commitment. "It was easy to say that I love God, however, the real test was to come in serving Him in spite of my own pain" "What I have come to learn is, it is not how great the size of the church building, nor is it how many people occupy the pews, but it is how great the faith of the church."

Pastor and author Joshua A. McClure and the members of Pleasant Street Baptist Church are witnesses to the miraculous transformation of a once expiring congregation and what can happen when a pastor or church leaders gets a vision from God and its congregation faithfully follow after God's heart. Yes, dried bones can live!! This book is highly recommended not only for pastors and church leaders but the entire congregation so that you may be a witness to the rebirth of dried bones!

## Endorsement for the book *Can These Bones Live?*

*Can These Bones Live? The Miraculous Story of What can Happen to a Church that Follows God's Vision.* "In his new book *Can These Bones Live?*, author Joshua A. McClure addresses the serious problem of the thousands of stagnant, declining, churches in North America."

*"The Lord took hold of me, and I was carried away by the Spirit of the Lord to a valley filled with bones. He led me around among the old dry bones that covered the valley floor. They were scattered everywhere across the ground. Then he asked me/ 'Son of man, can these bones become living persons again?' 'O Sovereign Lord,' I replied, 'you alone know the answer to that.' [Ezekiel 37:1-3] NLT*

Joshua McClure is recognized as a man who hungers and thirsts after God's own heart. His book *Can These Bones Live?* is timely. I am sure; this book will liberate the body of Christ from the conclusion that the mega church is the emblem of success. His obedience to fill the will of God at Pleasant Street Baptist Church will revolutionize pastors and congregations, especially congregations serving small churches. I personally endorse and recommend that every preacher, who desires nothing less than to live out the vision of God, should read and add this book to their personal collection as a present and future resource.

**Rev. Dr. Kelly Littlejohn, Jr., Pastor New Beginnings Christian Church Windsor, Connecticut**

---

One thing that attracts me to this book is that it is not a "how to do it" publication. Pastor McClure's understanding of where vision originates is very crucial to any of us being able to do the will of God. I am impressed with the style of writing in that anyone on any level should be able to read and comprehend what lies on the pages of this book. The real life experiences that are illustrated seem to jump right off of the pages and become such that the reader can almost feel like he /she is right there in the midst of what is happening.

Author Joshua A. McClure has done a marvelous job in looking at the challenge for the church to live again. Even though this is not a "how to do" book, I believe that if we would listen to the vision that God gives to each of us, then God will show us how to do what He wants done. If every pastor / leader would read this book, I believe it will bring new life to their ministries. Once the understanding of God's vision for the church comes, then surely these bones can live.

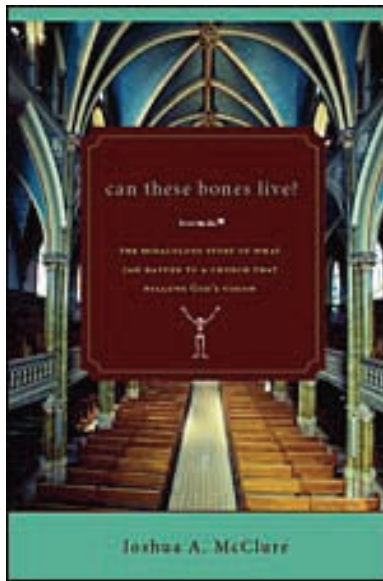

**Rev. Dr. Vincent L. Thompson, Jr., Pastor Community Baptist Church Newport, Rhode Island**

---

*Can These Bones Live?* is a book much needed for the so-called "small" church and its leadership! This is a book that is both spiritual (rooted in the scripture and the Holy Spirit) and down to earth (with real-life experiences)! It is a book that calls me to a more faithful ministry!

## OBJECTIVE

On the pages of my books one will find clear, simple biblical teaching for the head and for the heart. There is a blend of theological teaching on the central truths of the Christian faith followed by a practical spiritual application written for the heart. Believers will find that each chapter of my books are integrated with all of the others to provide a continual flow of the gospel message to enhance ones understanding for belief. My two motivational books *Can These Bones Live?* and *Almost Persuaded, Now to believe* are written to affirm that the Gospel is the “Good News about Christ. It is the power of God at work, saving everyone who believes.” [Romans 1:16]

### **Rhode Island Pastor Asks Community Can These Bones Live?**

Westerly, RI, April 25, 2008-- Is time running out for churches today? Does the alarming and depressing knell of church doors closing foreshadow the inevitable demise of the contemporary church? In his new books, *Can These Bones Live? and Almost Persuaded, Now to believe* (Tate Publishing), author, motivational speaker, and pastor Joshua A. McClure addresses the serious problem of the thousands of stagnant and declining churches in America.

An extensive new survey and published report by the *Pew Forum on Religion & Public Life* provides detailed statistics on religion in America and explores the shift taking place in the U.S. religious landscape. According to the report religious affiliation in the U.S. are changing significantly. "Seventy-five to 95 percent of churches are now dying, stagnant, or in decline," says Joshua A. McClure, who offers an insider's view into why these dramatic transformations are taking place.

McClure, discussing how to resuscitate a church in *Can These Bones Live?*, says, "It only works when God places the vision in people's hearts. God's vision can change churches to vital, living organisms." "People may say they believe in Christianity, but if you question them even slightly it becomes clear that many do not understand or accept the core tenets of its faith. They don't believe in its supernatural explanations, so the common cry is even though I don't understand, I accept it by faith, states McClure." This demands a need for plain, simple, clear teaching of the Scriptures, which McClure provides in his two new books. He helps the younger and older generations come to know the God they believe in. Hence they will be able encounter the power that draws people to Christ.

"In contemporary society, religious belief is falling faster than church attendance. The big problem facing the Church today is not translation of the faith into a form that the world will be able to understand. It is to enact the faith in a way that people can see it," states McClure." *Can These Bones Live? and Almost Persuaded, Now to believe* unveils what spiritual life really looks like. McClure shares the gospel message in every day language that help all come to understanding. His treatment of the basic tenets of the Christian faith is clear, cogent, moving, and will set a fire burning in readers hearts, so that all may experience the wonderful things God has freely given us.

Joshua McClure is the active pastor of Pleasant Street Baptist Church in Westerly, Rhode Island. McClure lives with his wife Ida in Bradford, RI on the outskirts of Westerly. He is widely known in the Rhode Island community and is actively involved in many community and civic activities. He is co-founder of the North End Crime Watch and Community Development, a community based organization which develops housing for low income citizens. He is frequently referenced in the Westerly Sun for his participation in community revitalization.
